

License Activation Center

EASY LICENSE CREATION & DISTRIBUTION

License Activation Center (LAC) is a SaaS (Software as a Service) solution that dramatically simplifies software license creation and distribution. LAC provides centralized license management for ISVs and on-demand access to software for their end users. LAC is on the cloud, so you always have easy access to it anytime, anywhere, with an internet connection.

LAC Benefits

Simplify License Fulfillment Process

License Activation Center simplifies license creation and activation by providing a centralized and standardized license management interface with 24/7 access.

Boost Revenue and Cut Costs

License Activation Center drives revenue and cuts operational costs by simplifying and automating license creation and delivery, eliminating maintenance, as well as customer support costs.

Increase Customer Satisfaction

License Activation Center allows you to simplify the license procurement process. Provide your customers with user-friendly experience by offering them anytime access to license activation, reducing the time to obtain license keys and possibility to reclaim lost licenses.

Key Highlights

Cloud Software: The Better Way

As a cloud-based application, LAC offers you advantages such as cost savings, reliable security, and automated data backup. You're also spared the traditional installation hassles and maintenance worries, since you'll always have the latest LAC upgrades simply by logging in. Sign up for an account, and start using a complete out-of-the-box license fulfillment solution immediately.

Easy Integration with Other Softwares

LAC provides a web-based API that can be used across many programming languages. The Vendor API can be used for the administration of licenses, including product, customer and license template management, while the End-user API can be used to automate license activation.

Works with Leading License Managers

License Activation Center natively supports LM-X License Manager, but can also be used with 3rd-party licensing systems such as Reprise License Manager (RLM), and FlexNet Publisher.

Bulk Licensing

You can provide more convenience to your end users by letting them use a single activation key to lock their licenses to multiple machines. Instead of requiring separate activation keys for each HostID licenses will be locked to, bulk licensing lets end users use a single Activation Key to lock the licenses to multiple machines.

License Activation Center

License Activation

END USER'S PERSPECTIVE

For end users the process is fast and straightforward. After receiving the activation key from the vendor, customers simply copy and paste it into the License Activation Center login page. From there they can provide additional information, such as a HostID, and then generate and download their license with a single click of a button.

1. Obtain an Activation Key from the software vendor
2. Go to <http://license.x-formation.com>
Enter your Activation Key
3. Activate the license.

Complete Solution

Imagine an end-to-end solution for every phase of license management. X-Formation can make it happen. By combining License Activation Center with our other license management products, you can gain complete control over your software license management.

License Statistics is a web-based tool that monitors, processes, and produces reports on software license usage.

LM-X License Manager integrates with LAC to deliver centralized software license management for vendors and online license activation for end users.

Ready to Give LAC a Try?

Experiment with License Activation Center right now by logging into our **online demo** with the credentials: demo | demo.

ACTIVATION VIA EMAIL? NO PROBLEM.

With LAC end users have an option to activate licenses by email. All they need to do is to send an email to license@x-formation.com with their HostID and Activation Key. Shortly after, they'll get a reply email with the license attached.

ISVs PERSPECTIVE

LAC offers an intuitive web interface for ISVs, where they can easily define software products and select license generators. After product configuration, the vendor can create license orders with just a few steps and generate Activation Keys, which can be sent automatically to the end users.

Try Before You Buy!

No need to go through sales.

Create your own account and start using License Activation Center with 50 free license activations today!
